

**Please Note:**

1. Option 015 requires that your PNA/PNA-X instrument is running the Windows 7 operating system.
2. Access the PNA firmware page on the support website to download the latest version of the PNA firmware. You will need version A.10.40 or above. The webpage address is <http://na.support.keysight.com/pna/firmware/firmware.html>
3. Once a supported firmware revision is installed and running, complete the installation by entering the keycode provided for option 015.
4. If you have not obtained a keycode and did purchase option 015, please send an email to [ctd-soco\\_support@keysight.com](mailto:ctd-soco_support@keysight.com) to obtain a keycode to enable the option.

Sincerely,

Keysight Technologies
